

SOUTH COAST PLAZA PALM COLLECTION

Self-Guided Tour

Quality is

International Destination

WELCOME

to South Coast Plaza's
Palm Collection!

We hope this guide will help you enjoy a tour of our diverse palm collection, unique in Southern California. The core of our collection comes from the estate of Dr. A.J. Vance. Dr. Vance began collecting exotic palms in the late 1940s at his canyon estate located off Sunset Boulevard. The collection was recognized for both its size and diversity of plantings.

After Dr. Vance's death in the early 1980s, the collection was acquired by South Coast Plaza and transplanted to its present location in 1986. With the help of Ralph Velez and the International Palm Society, South Coast Plaza continues to add unique specimens to its collection. Particularly noteworthy are the large Cuban Royal Palms (*Roystonea regia*), a large cluster of Slender Lady Palms (*Rhapis humilis*) and the Hawaiian Loulu Palm (*Pritchardia hillebrandii*).

All palms are labeled with their common name, botanical name and most have country of origin.

We hope you enjoy this interesting and educational tour.

CHARACTERISTICS OF PALMS IN THE SOUTH COAST PLAZA BEAR STREET PALM COLLECTION

CLUSTERING PALMS

Areca Palm (9, 13, 17 – Madagascar)
Slender Lady Palm (18 – Southern China)
Clumping Fishtail (81 – Philippines)
Pacaya Palm (74 – Guatemala)

SOLITARY PALMS

Kentia Palm (1, 15, 40, 42, 46 – Lord Howe Island)
Cuban Royal Palm (5, 7, 10, 49 – Caribbean, Cent. Amer.)
King Palm (39, 63, 73, 84, 87 – Australia)
Solitary Fishtail Palm (78 – Myanmar)
Chilean Wine Palm (51 – Chile)
Cliff Date Palm (62 – India)
Alexandre Palm (25 – Australia)
Pacaya Palm (74 – Guatemala)
Needle Palm (24 – Southeastern US)
Mexican Fan Palm (72, 75 – Mexico)
Norfolk Island Palm (6 – Norfolk Island)
Silver Rootspine Palm (14 – Cent. Amer.)
Majesty Palm (38 – Madagascar)

PALMS WITH IRRITATING FRUIT

Pacaya Palm (74 – Guatemala)
Caryota Species (26, 77 – Thailand, Laos, India))

PALMS THAT GROW WELL IN PARTIAL SHADE

Queen Palm (45, 67 – Brazil)
Kentia Palm (1, 15, 40, 42, 46 – Lord Howe Island)
Alexandre Palm (25 – Australia)
Pacaya Palm (74 – Guatemala)
Slender Lady Palm (18 – Southern China)
Maya Palm (43 – Cent. Amer.)
Chamaedorea Series (19, 47, 83 – Hybrid)
Weeping Cabbage Palm (88 – Australia)
Majesty Palm (38 – Madagascar)

PALMS GENERALLY 20' TALL OR LESS

Clumping Fishtail (81 – Philippines)
Pacaya Palm (74 – Guatemala)
Slender Lady Palm (18 – Southern China)

PALMS WITH SPINES OR TEETH

Senegal Date Palm (58, 65 – Africa)
Bismarck Palm (29 – Madagascar)
Blue Hesper Palm (79 – Baja California, Mexico)
Dwarf Date Palm (50 – Laos)
Cliff Date Palm (62 – India)
Guadalupe Palm (82 – Mexico)
Mexican Fan Palm (72, 75 – Mexico)
Needle Palm (24 – Southeastern US)

HIGHLY DROUGHT-TOLERANT PALMS

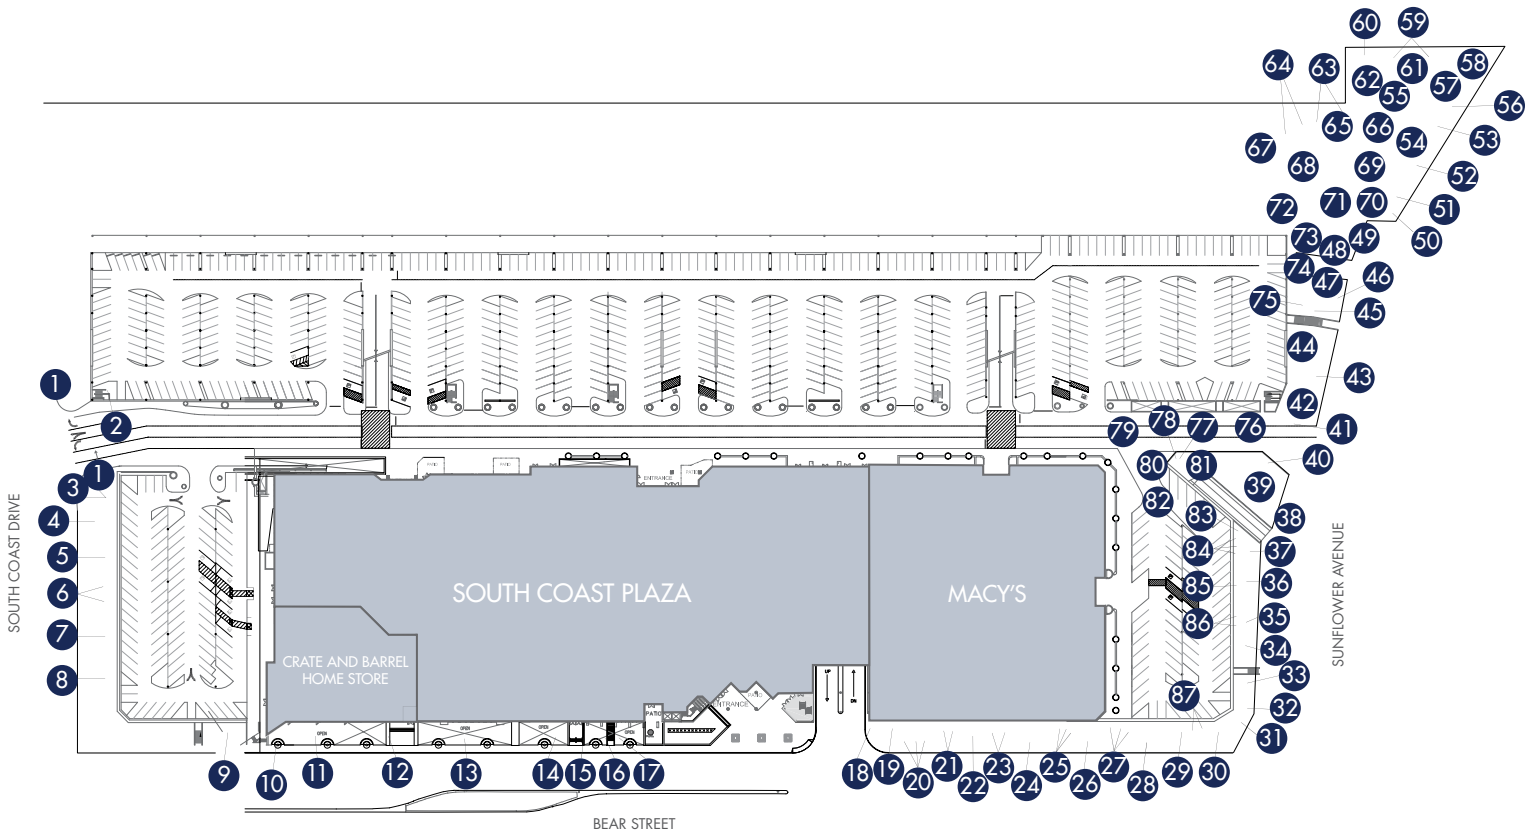

Chinese Fountain Palm (16, 28, 64 – Southern China)
Senegal Date Palm (58, 65 – Africa)
Cliff Date Palm (62 – India)
Arikury Palm (66 – Brazil)
Mexican Fan Palm (72, 75 – Mexico)
Needle Palm (24 – Southeastern US)
Blue Hesper Palm (79 – Baja California, Mexico)

FAST-GROWING PALMS

Queen Palm (45, 67 – Brazil)
Cuban Royal Palm (5, 7, 10, 49 – Cuba)
Solitary Fishtail Palm (78 – Myanmar)
Giant Fishtail Palm (26 – Thailand, Laos, India)
Weeping Cabbage Palm (88 – Australia)
Majesty Palm (38 – Madagascar)

PALMS THAT GROW IN LOW LIGHT

Pacaya Palm (74 – Guatemala)
Slender Lady Palm (18 – Southern China)

#	Common Name Botanical Name	Region of Origin	#	Common Name Botanical Name	Region of Origin
1	Kentia Palm <i>Howea forsteriana</i>	Lord Howe Island	16	Chinese Fountain Palm <i>Livistona chinensis</i>	Southern China
2	Chinese Windmill Palm <i>Trachycarpus fortunei</i>	China	17	Areca Palm <i>Dypsis lutescens</i>	Madagascar
3	Hispaniola Palm <i>Sabal domingensis</i>	Bermuda	18	Slender Lady Palm <i>Rhapis Humilis</i>	Southern China
